Rainbow Wants a Fight.

According to the Vancouver papers, eceived yesterday, the Canadian cruiser Rajabow is looking for a fight with the German cruiser Leipzig and is con-fident of being able to handle the latter in a ship to ship action. On August 3 the Rainbow left Vancouver for the south to bunt out the Leipzig, believed at that time to be on her way north from Mexico to join the German squadron off China. At that time the Nurnberg was not being taken into consideration, and the joining of the two Germans may have driven the Canadian cruiser back to her own waters, after she coaled at San Francisco.

The Vancouver papers say that the Leipzig is faster than the Rainbow by three knots, but that the British boat bus the heavier armament, having two six-inch, two four-inch and six twelvepounders, in comparison with the Leip-zig's ten four-pounders.

The Vancouver naval cadet corps are now on active service at Esquimalt, the British naval lease on the Pacific Canadian coast.
